

SCIENCE CAFE

FREE
COMMUNITY
EVENT

As part of British Science week, we're hosting two Science Cafés. Come along for an informal introduction to science through ecology and engineering. The Café events will be held in our Heritage Space over coffee and cake - what better way to fuel the mind and body?

Our Science Cafés are free to attend.
Do spread the word!

"We live in wonderful days of almost embarrassing advance in science and industry"
Charles Wicksteed, 1928

Tuesday 14 March
10:45am - 12pm

Dr Scott Turner, Associate Professor (Computing & Immersive Technologies) based at University of Northampton will lead a talk about Junkbots, a project that combined environmental sustainability, engineering and computing alongside current research 'Visualising the Field'.

Thursday 16 March
10:45am - 12pm

Join Paul Wyer of the Wildlife Trust to learn about the wildlife on your doorstep, in your gardens and around our lake. Find out about animal habitats and our impact on the natural environment. Discuss what you can do to maintain and increase local wildlife.

To book your free place call 01536 512475
