

Create a Tree Potato Print

What you need:

- Potatoes (or a sponge)
- Paper or newspaper
- Paint
- A tree template or you can draw your own

How to Make it:

Have a walk, look out of the window or search online to see the different trees in your area and how the leaves change colour through the seasons.

Cover your work surface and have some paint ready on an old plate

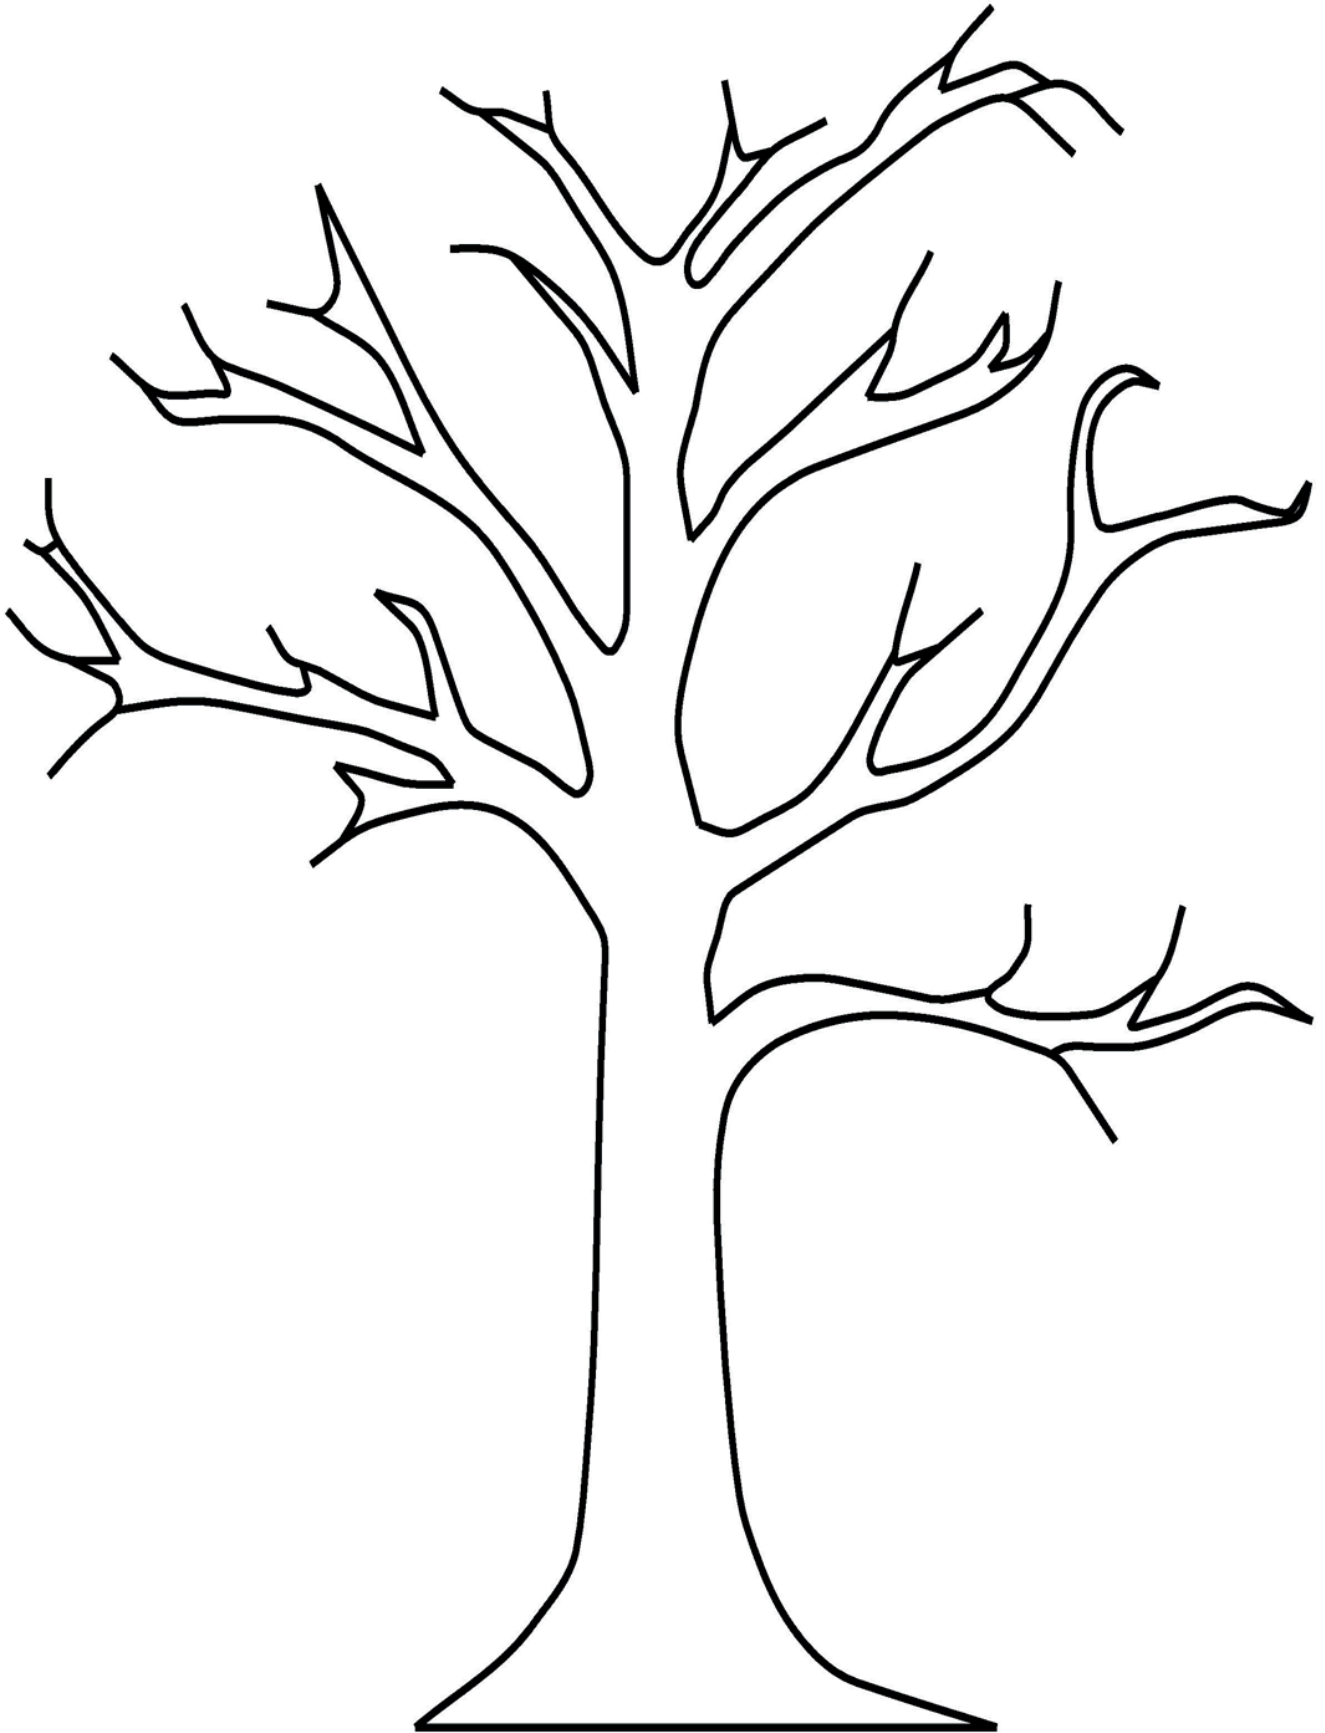

Print out or draw your tree

Cut a simple leaf shape and veins into your potato or sponge

Dip your potato into the paint.

Print the potato onto your tree template to create leaves, use different colours to add depth to your picture.

Leave to dry

Collage Paper leaf

What you need:

- Leaf template or design your own
- Card or Paper
- You can reuse old cereal packets or newspaper
- Scissors
- Glue or flour and water paste
- Tissue paper, scrap paper or sweet wrappers

How to Make it:

Have a walk, look out of the window or search online to see the different trees in your area and how the leaves change colour through the seasons.

Cover your work surface and have some glue ready
To make flour and water paste add 1 part flour to one part water and mix

(you can use an egg cup to measure)

Design and cut out your leaf shape

Cover your leaf in glue

Cut or tear pieces of tissue paper

Cover your leaf in tissue paper scraps

Leave to dry

Don't forget you can make lots to create your own tree!!
